

NAYANA SANTOSH

7842369114 | santunayana0324@gmail.com

Career Objective

Computer Science undergraduate with hands-on experience in **full-stack web development and machine learning**. Strong foundation in **DSA (Java)**, modern web technologies, and real-world project development. Actively seeking **software development / web development** internships to contribute to impactful products and sharpen engineering skills.

Education

- Bachelor of Technology in Computer Science and Engineering

Anil Neerukonda Institute of Technology and Sciences

2023-2027

Technical Skills

Programming Languages: C, Java, Basics of Python and C++, DSA(Java)

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues (Java)

Web Technologies: HTML, CSS, JavaScript

Tools and Platforms: Android Studio, VS Code, Git, GitHub

Databases: Relational DBMS(MySQL), Firebase

Personal Projects

1. Real-Time Age and Gender Detection System

Tech Stack: Python, OpenCV, Deep Learning, CNN, Computer Vision

Live Demo: <https://santoshnayana-age-gender-detection.hf.space>

- Developed a real-time computer vision system to detect human faces and predict age group and gender using a webcam feed.
- Implemented face detection using OpenCV DNN module with pre-trained deep learning models.
- Applied convolutional neural networks to classify age ranges and gender with high accuracy.
- Designed an efficient pipeline for image preprocessing, face cropping, and prediction.
- Displayed live results with bounding boxes and labels on detected faces.

2. AI Resume Analyzer & ATS Scoring Platform

Tech Stack: Python, Stream Cloud, Firebase Authentication, PyPDF2, Regex

 Live Demo: <https://ai-resume-analyzer-klaovbbntzc6qdvswfwhtrw.streamlit.app>

- Built an AI-powered resume analyzer that evaluates resumes using ATS-style scoring based on job-specific skill matching.
- Implemented PDF resume upload and parsing to extract and analyze candidate skills automatically.
- Designed branch-wise and role-based evaluation logic to ensure accurate industry-aligned resume screening.
- Developed skill gap analysis highlighting matched and missing skills with actionable improvement suggestions.
- Integrated Firebase authentication for secure user login and signup with session handling.

Certification And Training:

- Machine Learning Internship-SkillDzire

HACKATHONS & ACTIVITIES

- 24-Hour SEO-Friendly Website Development Hackathon (ANITS)

Built a fully responsive and SEO-optimized website under strict time constraints

- Cyber Security Workshop (2 Days) – Covered ethical hacking , network security, wireshark, Kali linux, and cyber threat prevention.

Soft Skills:

- Teamwork
- Adaptability
- Time Management
- Quick Learner
