

SANTOSH NAYANA

+91 7842369114 — Visakhapatnam, India

santunayana0324@gmail.com — linkedin.com/in/santoshnayana — github.com/santu-santu8

Professional Summary

Aspiring Full Stack Developer and AI Enthusiast skilled in React.js, Node.js, Python, REST APIs, and MongoDB. Passionate about building scalable SaaS applications, responsive web interfaces, and AI-powered solutions. Strong foundation in DSA, OOPS, DBMS, and modern software development workflows. Eager to contribute to innovative frontend, full stack, and AI automation projects.

Education

B.Tech – Computer Science	ANITS Engineering College CGPA: 8.7/10	2024 – 2027
Diploma – Computer Science	State Board of Technical Education Percentage:85%	2021 – 2024

Technical Skills

Frontend Development: React.js, HTML5, CSS3, JavaScript, Responsive Web Design, Tailwind CSS.

Backend Development: Node.js, Express.js, REST APIs, Authentication & Authorization, API integration.

Databases: MongoDB, MySQL, SQL, PostgreSQL

Programming Languages: Java, Python, JavaScript, C, C++

Cloud & Tools: AWS, Firebase Authentication, Git, GitHub, VS Code, Hugging Face, Vercel.

Core Computer Science: Data Structures & Algorithms (DSA), OOPS, DBMS, Operating Systems,

Computer Networks, SDLC.

AI & Machine Learning: Machine Learning, NLP, OpenCV, CNN, Generative AI.

Experience

Machine Learning Intern – SkillDzire (Remote) May 2025 – Jun 2025

- Developed Machine Learning models using Python and integrated them into Full Stack web applications.
- Built REST APIs and backend services using Node.js for scalable application development.
- Collaborated using Git and agile development workflows for project deployment and optimization.

Ethical Hacking Workshop (2-Days)

- Completed training in Cybersecurity, Ethical Hacking, and Penetration Testing concepts.
- Gained hands-on experience in Vulnerability Assessment, Network Security, and OWASP practices.

Projects

AI-Resume Analyzer 2025 [\[CODE\]](#) [\[LiveDemo\]](#)

Developed a Full Stack ATS Resume Analyzer using React.js, Node.js, Python, NLP, and REST APIs for ATS scoring, keyword analysis, and skill gap identification. Implemented resume parsing, backend API integration, and secure database-driven workflows for scalable AI-powered applications.

AI Image Generator 2026 [\[CODE\]](#) [\[LiveDemo\]](#)

Built a Full Stack Generative AI application using React.js, Node.js, Python, PyTorch, and Stable Diffusion for real-time image generation from text prompts. Implemented REST API integration, backend AI inference pipelines, prompt handling, and scalable deployment workflows for high-performance AI-powered applications.

Real-Time Chat Application 2026

Developing a real-time Full Stack Chat Application using React.js, Node.js, Express.js, MongoDB, and Socket.IO for instant messaging and live communication. Implemented secure authentication, REST API integration, responsive UI design, and scalable backend architecture to support real-time user interactions and modern SaaS workflows.

Certifications

- Machine Learning Internship – SkillDzire
- Ethical Hacking – CyberTherya
- Generative AI Essentials – TCS iON
